

## REMARKS

The Applicants respectfully traverse the restriction and elect group I: Claims 1-4, drawn to a method for calibrating a motion picture film scanner, classified in class 348, subclass 97. Furthermore, the Applicants believe that group IV can be examined along with group I, since group IV claims are classified exactly as group I claims. Claims 14-23 in group IV are drawn to a method and system of transferring an image recorded on a motion picture film, and were also classified in class 348, subclass 97. The Examiner is welcome to telephone me should he disagree with examining both group I and group IV. The remaining claims (5-13) are withdrawn.

Respectfully submitted,
